**Subject:** RE: Transmittal notification: 20-A-ORM-000015 - Identification of FY 2020 PFAS Resources

Thanks for the clarification.

I'm a lot better this week, thanks. Last week, I was majorly regretting doing the surgery, but over the weekend I finally turned a corner. I get the stitches out today, so hopefully uphill (though still mostly on Glenda's scooter 😊) from here! Have a great weekend!!

Hi Kelley,

Welcome back. I hope you are feeling better. You don't have to do anything with this. It was just information. Apparently the AA asked Centers and Offices for their PFAS costs. Tim B. wanted us to ensure the Qlik effort was included in the figures.

**Ex. 5 Deliberative Process (DP)**

**Ex. 5 Deliberative Process (DP)**

Thanks,

Alex

Hi Alex. I'm not sure I understand all this. Do I need to do anything with the budget?

Thanks,

Fyi... I think showing this effort in one place (e.g. CPHEA) since they are leading the effort made most sense. I wanted to make sure their numbers included our commitment.

Jeff,

In preparing CPHEA's response to the transmittal below, **Ex. 5 Deliberative Process (DP)**, I talked to Alex and he indicated that OSIM will NOT be reporting. I think it makes sense for this to be captured under CPHEA since the effort is led here. This is an SHC project and probably the best home is SHC.5.5.516 (see below). I hope this makes sense.

Thanks.

Tim

Subject: RE: Transmittal notification: 20-A-ORM-000015 - Identification of FY 2020 PFAS Resources

Alex,

Thanks for the reminder. The Explorer should definitely be included. Drew would have captured the GeoPFAS effort but not the Qlik. I will take a look at the spreadsheet and see what needs to be done to capture.

Tim

Hi Tim,

I heard about your assignment as Associate Director. Congratulations! I wanted to ensure that this did not fall through the crack and couldn't recall if you had responded. Please see below and let me know if you need OSIM to do anything.

Thanks,

Alex

**Subject:** FW: Transmittal notification: 20-A-ORM-000015 - Identification of FY 2020 PFAS Resources

Hi Tim,

I'm not sure OSIM is the right office to submit anything on this. In short, should CPHEA include the Explorer and Geo work in their response to the call memo? I'm not sure how to fill in or represent our current effort. I looked in RAPID/RMS system and found the following entry. I think Drew may have entered this information in RMS. Let me know if you need more information.

#### Research Area

**Ex. 5 Deliberative Process (DP)**

Product Title	Product ID	Primary RA	Product Type	Ex. 5 Deliberative Process (DP)
Atlas of PFAS sources and environmental occurrence	<u>SHC.5.5.516</u>	<u>SHC.5</u>	Scientific Data	

Thanks,

Alex

## ORD ACTION TRANSMITTAL

**Transmittal Subject:** Identification of FY 2020 PFAS Resources  
**Response Due Date:** 01/03/2020  
**Contact Organization:** ORM  
**Background Information**

In April, 2019, ORM requested PFAS resource levels for FY 2018 and FY 2019. This request followed the finalization of the PFAS Action Plan. Given the heightened awareness and concern about PFAS from the

public, media, and Congress, ORM is confident that ORD will receive ongoing requests for information regarding our research efforts.

---

#### Analysis

---

On February 14, 2019, EPA finalized and released its PFAS Action Plan. In April 2019, ORM requested PFAS resource levels for FY 2018 and FY 2019 in preparation for questions from OMB, Congress, and others.

ORM is requesting FY 2020 Operating Plan base resources (dollars and FTE) associated with PFAS research to be tagged in IRMS. This is subject to change after EPA receives an Appropriation. ORM will use also this data to inform the FY 2021 President's Budget submission as well as coming fiscal cycles. When it is appropriate, ORM will ask for updates to this information.

---

#### Action/Instruction for Response

---

Attachment A is the submission from earlier in 2019 completed by the Labs and Centers. Even though the submission is in the old organizational and StRAP structures, it can serve as the foundation for this exercise to identify PFAS resources in IRMS.

Attachment B contains the instructions and template for the National Program Directors and Centers and Offices to complete. NPDs and Center/Offices should work together to submit a complete template. Please create new rows and enter PFAS in Column I (green cells) and fill in the resources that should be tagged as PFAS. Dollars should have separate rows than FTE. The total at the top of the template should not change. In other words, the tagging should result in a net zero change to the budget. We are only requesting Programmatic dollars and FTE at this time.

If there are any questions, please reach out to Maya Pachnowski at (919)541-1090 or Matthew Richards at (202)-875-3381 or via email. Please send your responses to Maya and Matt by COB on Friday, January 3, 2020.
